## Mapping Newtown

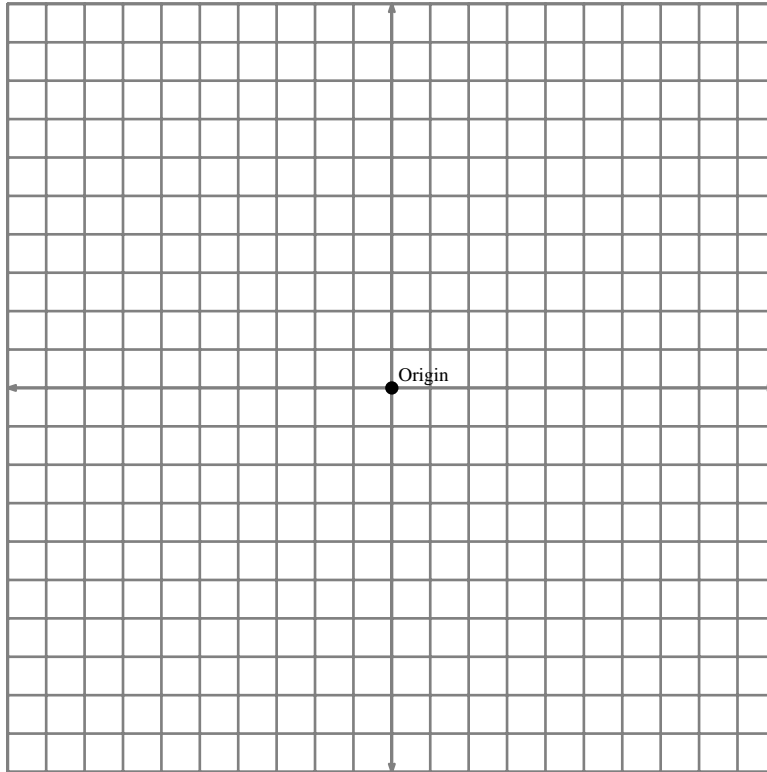

Professor Smartypants has decided to move his laboratory from the old-fashioned Cityburg to futuristic Newtown. Newtown is a strange and beautiful place to all newcomers, and Professor Smartypants needs to find his way around. In order to learn about the town he has sent his newest invention, **ROVERBOT 1.0**, out on a mission to find all of the places Professor Smartypants was familiar with back in his old home in Cityburg.

**ROVERBOT 1.0** has returned with a list of the places and the settings needed to get the **FETCHBOT 3000** to each place from home. Professor Smartypants would like a map of Newtown.

*Mark each location on the map of Newtown. Label each place.*
